

# BIOGRAPHY OF AN EXCEPTIONAL CHEF

Born in Bordeaux, France, Chef Michael Tocchetto has always been passionate about gastronomy. He even left his home town to learn on the field. Quickly considered as talented, Tocchetto is promoted Chef and continues his journey in the kitchens of England, Australia, Nigeria and French Guiana to name a few.

As his international career was well established, he was ready for a new challenge: working at sea. He became executive Chef on board of several luxury cruise ships. He became, without a doubt, a reference in the field, while his passion for cooking guided him around the world several times.

His thirst for discovery brought him to a new country; Canada. He moved to the land of his French cousins, Quebec and literally fell in love with the capital for all it has to offer. To our best interest, Michael Tocchetto finally seems to have found his final destination and docked in Quebec City. He accepted the role of Chef de Cuisine at the Que Sera Sera restaurant, operated by the famous *Marriott Hotels* chain.

Michael Tocchetto found a new inspiration: the beauty of city in which he lives. Through his work, all can taste the flavors of his numerous trips combined to the authenticity of Québec's cuisine. For Michael Tocchetto, cooking was and always is a lifestyle and philosophy before anything else.
